Smoke and Carbon Monoxide Detector Certification Letter

Property Address: _____
Block: _____
Lot: _____

Smoke detectors/alarms must be installed on every floor, including the basement and excluding the attic, must be properly located and mounted in the unit and functioning properly. Furthermore, carbon monoxide detectors/alarms must be installed within ten (10) feet of all sleeping areas, must be properly mounted in the unit and functioning properly.

It is understood that if the owner/agent/tenant discovers that the required smoke and carbon monoxide detectors/alarms are not in the unit, improperly located or not functioning, it is their responsibility to take the appropriate action to remedy the situation.

In addition smoke and carbon monoxide detectors/alarms are not to be more than 10 years old from the date of manufacture not the date of installation as per NFPA 72-10.4.7.

I hereby certify that all of the above requirements have been met at the above property in the Township of Winslow.

Owner/Agent/Tenant Signature: _____

Date: _____
