

Efficiency and Conservation Block Grant (EECBG) program

Through the American Recovery and Reinvestment Act (ARRA), the Township of Winslow has been allocated \$153,300.00 in funding from the U.S. Department of Energy (DOE), Energy Efficiency and Conservation Block Grant (EECBG) program.

Winslow Township will be allocating the majority of these funds to provide energy conservation by replacing lighting with new energy efficient lighting and by replacing outdated heating and hot water systems with newer energy efficient units. Additionally a portion of the funds has been used to develop an energy savings master plan to guide and assist the Township in reducing its carbon footprint.
