

WINSLOW TOWNSHIP POLICE DEPARTMENT

VOLUNTARY COMMUNITY CAMERA PROGRAM REGISTRATION

In furtherance of the concept of community partnerships, the Winslow Township Police Department is requesting residents, businesses, and organizations that have security cameras in place on their property to complete a short registration from.

The registration is voluntary and does not give the Winslow Police Department access to your camera systems. It allows our agency to maintain a database of active cameras in the event a crime occurs in your area. As crimes occur nearby, residents and business owners are not always aware that their system may have captured information that could help solve the crime, thus keeping our community safer.

If you would like to partner with the Winslow Township Police Department in deterring criminal activity and capturing violators, we encourage you to register your surveillance cameras with us.

Do you have a private surveillance system?

YES NO
